## Passenger Numbers Continue to Increase at OKC

**OKLAHOMA CITY, January 30, 2024** – Will Rogers World Airport (WRWA) served 4,400,049 airline passengers in 2023, which was an increase of more than 11% from 2022 which had 3,951,333 passengers. The numbers came close to matching 2019 passenger numbers of 4,418,749, which are the highest on record.

“We had a great 2023, and continued to see recovery post Covid” said Jeff Mulder, Director of Airports. “One of our goals for 2023 was to improve air service to Florida, and Southwest added a non-stop to Orlando, and American increased frequency and aircraft size to Miami.”

Mulder said, “We almost matched our airline passenger record year of 2019 in 2023 with fewer flights and destinations compared to the pre-Covid market. It shows the strength of our market. Airlines are planning to add additional service back in 2024 and we anticipate our growth will continue.”
